

Business Men Demand Industry Shall Not be Halted by Strikes or Lockouts During War

BANDON PROFITEERING,
A SECRETARY WILSON ASKS
United States Chamber of Commerce
Favors no Change in Standards
During Present Crisis.

ATLANTIC CITY (N. J.) Sept. 20.—Co-operation of labor in assuring the government that the production of supplies will not be halted by strikes or lockouts during the war was invited by American industry today in resolutions approved by the industrial relations section of the war convention here, at American business men. The resolutions will be put before the full convention tomorrow for final adoption.

The action was taken after a stirring speech by Secretary of Labor Wilson, who declared that the spirit of unrest among laboring men was due in large measure to the general impression that business has been making excessive profits in which labor has not shared.

WILSON'S STATEMENT.
"Has it never occurred to you business men," Secretary Wilson asked, "that the story has gone forth that you are not patriotic; that you are being profiteering? And did it ever occur to you that the working man has said himself he will insist on getting his share of the sweat of his position is that there should be no war?"

He has said to labor that this is no time to insist on union recognition and no time to insist on changes in labor standards. But, I, as a man who has been in the ranks, I want to say to you employers that this is no time to stand on your pretensions, no time to insist on your prerogatives. You would not be at advantage of your country's necessities to insist on abnormal profits."

THE RESOLUTIONS.
The attitude of industry towards labor as defined by the resolutions approved, is as follows:
"That no attempts be made by business to change labor conditions and that labor make no efforts to change union recognition or change in standards."

That there be no profiteering in business to give rise to labor unrest.
That business recommend to the government creation of a government board representing labor, capital and the public, to settle all major disputes and that the board's decisions be binding on both sides.
That industry call on labor to co-operate in making it plain there will be no strikes or lockouts while adjustments are being made.

That government employment agencies be developed and extended by Congressional appropriation.
That industry institute a study of conditions looking towards the alleviation of conditions during times of industrial depression.

As originally drawn, the resolutions, in the opinion of some members of the conference, sought to dictate to labor in demanding compulsory arbitration of disputes. This suggestion was opposed as vigorously as that labor make no efforts to change union recognition or change in standards.

RHETT'S STATEMENT.
"We are not here," R. G. Rhett of Charleston, S. C., president of the Chamber of Commerce of the United States, declared, "to discuss what either labor or capital shall do. For us to presume that would be to miss the entire spirit of this convention. We are here to approve conditions, not to dictate to anyone."

Other sections of the convention today took up the subjects of export control, the raising of national revenue by taxation and bond issues and foreign trade problems.

The next bond issue may fall, said Prof. W. A. Scott of the University of Wisconsin, because of the failure of people generally to realize their part of the government's financial responsibility.

The banks, Prof. Scott said, are pressed to the limit of their resources to provide money to establish and run industrial concerns the war has produced. This, he said, puts the burden of the burden on the bank and the file of the people.

FARMER AS PROFITEER.
The war farmer is the farmer, declared Frank O. Watts of St. Louis, who said:
"The farmer is the one man whom the tax has reached. He is the real capitalist, instead of the banker. In the last ten months of 1917 the farmer has made more profits in excess of the pre-war ten months of war and a half billion dollars. Yet no serious attempt has been made to tax him. He is willing to bear his share of the burden. I know, but he has been spoiled."

The section which discussed export control recommended that the government be urged to maintain enough tonnage in the South American trade to insure the free flow of trade in that section and that machinery be established to expedite the issuance of export licenses.

Speakers included John D. Ryan, George E. Roberts, F. I. Kent, Charles H. Thornton and S. R. Barrett of New York and John C. Barrett of San Francisco.

SCORES SHERMAN ACT.
A vigorous denunciation of the operation of the Sherman Anti-trust act as hampering the efforts of business men to aid the government in prosecution of the war was made by Alva B. Johnson, president of the Baldwin Locomotive Works.

"If there is any one thing this war has demonstrated," he said, "is the principle of the Sherman act will not stand the strain of war. The moment the stress of the war comes the nation we see this temple to a false god overturned. The government itself is eliminating competition and has realized that business must be conducted on a basis of reasonable profit. The only way to reach a basis is by conferences among producers."

The bill pending in Congress to permit the export of surplus goods should be passed immediately, Mr. Johnson declared, that American industry may act in concert in further-

Wheat to Hogs.

(Continued from First Page.)

price upon his product at a time when the law of supply and demand is in his favor, without at the same time raising the price of other articles for his consumption, the statement says.

"First-hand information of wheat being fed to stock in Blaine and Woods counties has been received at this office," the statement continues. "In the form of reports from county agents. Very little corn has been raised in Northwestern Oklahoma, with one county reporting a 3 per cent. crop."

"With corn worth \$2.25 a bushel and wheat bringing from \$1.80 to \$1.95 at the elevator, the farmers are using wheat for fattening hogs, their relative food value being almost identical."

"In Woods county farmers are feeding wheat as the cheapest food they have. When wheat is sold until the price is raised, the county agents report. The government has not fixed the price of corn."

Methods of this body, which the preponderance of weight in this respect, the speaker said, must already be approaching exhaustion, but the end of hostilities was being delayed because of the wonderful co-ordination of all her material forces.

In part, Mr. Farrell said: "The United States is called on to do its share of a tremendous task with a meager merchant marine. Yet, although it is apparently the intention of the United States Steel Corporation, and other large corporations, to build up a fleet of ships, the United States and the Allies are the preponderance of weight in this respect, the speaker said, must already be approaching exhaustion, but the end of hostilities was being delayed because of the wonderful co-ordination of all her material forces."

While the supply of the needs of our Allies and of our own expeditionary forces is, of course, the first necessity, it would be a mistake to regard this as entirely apart and separate from the maintenance of our national commerce, especially of that with Latin America and Asia. We may realize practically pan-Americanism by steadfast recognition in principle and practice of the economic ties between the United States and other American republics. Our country must continue to export a market for a considerable part of the products of Latin America, and must see to it that adequate transportation is provided for the conveyance of that merchandise."

AMERICAN LIEUTENANT
REPORTED KILLED.

(BY ATLANTIC CABLE AND A. P.)
OTTAWA (Can.) Sept. 20.—The death of Lieut. J. L. MacFarlane of San Francisco, Cal., was reported in the casualty list today.

NEW ALIEN DRAFT ACTS
DISCUSSED IN CONGRESS.

May not Affect Outsiders Coming Into United States Temporarily.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
WASHINGTON BUREAU OF THE TIMES, Sept. 20.—The judgment of members of Congress studying the proposed alien draft legislation is that it will not affect aliens who come into the States temporarily to work with no intention of making the places where employed their permanent residence. Conditions existing along the Mexican border are duplicated in some respects along the Canadian border, and inquiry as to the effect of the proposed law has been made from various sections of the country.

There is no assurance that the draft bill prepared by Mr. Rogers of Massachusetts will be acceptable to the administration. Secretary Lansing has refused thus far to give his approval, and President Wilson has not seen the text of the proposed law. Mr. Rogers, author of the proposed bill, was asked tonight whether Mexicans working in the United States along the border would be subject to the draft.

ROGERS'S STATEMENT.
He made the following statement: "I have been asked the question by some of my colleagues in the House. Similar conditions exist adjacent to the northern boundary. I would say that Mexicans who come into the States and obtain employment that is recognized to be of a temporary character, and who have no intention of making the United States their permanent homes would not be residents in such a sense as to bring them under the survey of even the bill I have prepared. Their sojourn within the States is for a momentary purpose and is not, in my judgment, subject them to our military law. Labor conditions along the border are duplicated in some respects along the Canadian border, and inquiry as to the effect of the proposed law has been made from various sections of the country."

CANADIAN ELECTION ACT
BARS ENEMIES' VOTES.

Dominion Parliament Adjourns After a Most Important Session.

(BY A. P. NIGHT WIRE.)
OTTAWA (Ont.) Sept. 20.—The last session of the twelfth Parliament of Canada ended late today when the Governor-General, the Duke of Devonshire, gave assent to legislation enacted and declared Parliament prorogued. In his speech from the throne the Governor-General said:

"Although the stream of war becomes increasingly severe, the people of Canada, resolute in the supreme purpose of achieving true victory and abiding peace, have not faltered. And I am confident that whatever further efforts are necessary will be put forth in the stern determination that the vast sacrifices already made shall not have been in vain."

The session has lasted eight months, during which many important matters have been decided. To meet the expense of Canadian war operations \$350,000,000 has been voted. Conscription was enacted to

provide 100,000 reinforcements for Canadian troops in the field. Prime Minister Borden unsuccessfully tried to induce Sir Wilfrid Laurier to join him in the formation of a coalition government. This failing, and an application for a vote of confidence in the government having been rejected, arrangements were made for election by enacting a bill providing for soldiers' voting rights in Canada. In the late elections a vote was passed, extending the franchise to wives, widows, sisters and daughters of Canadian soldiers overseas, while the right to vote was withdrawn from enemy countries whose Canadian naturalization is of less than fifteen years' standing. These measures, it is calculated, will give a majority vote of not less than 1,000,000. The election is to be held before Christmas.

It was announced that the first census of conscripts, comprising 20 and 24 years of age, will be called immediately to the colors.

NET TIGHTENS
ABOUT DEPUTY.

Bank Denies it had Any Dealings with Turmel.

German Propagandist Now is Dragged into Case.

Premier Refers Ominously to "Certain Foreign Agents."

(BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.)
PARIS, Sept. 20.—Nothing has stirred the inner political life of Paris recently so much as the Turmel affair. When Raoul Peret, keeper of the seals, asked Paul Deschanel, president of the Chamber of Deputies, for authorization to open inquiry against a deputy, it became apparent, even though the deputy's name was not stated, that the investigation was to be into the activities of Turmel. While his more intimate acquaintances suggest the charge against him stands on a mere reading with the enemy, others point out that possibly he has violated the treason laws.

The whole affair becomes more and more mysterious every day. In an interview Turmel once said the \$5000 found in his locker at the Chamber of Deputies was not paid to him by the Swiss Federal Bank. Before leaving Paris for his home at London he wrote to the president of the chamber informing him that the money was paid by the bank. Yesterday the bank categorically denied paying Turmel money and declared it does not know him.

Inquiry have not yet proved it positively, they have at least given grounds for believing there is a connection between the Turmel case and the Bonnet Rouge scandal and Turmel.

PARIA PROPAGANDIST.
Bolo Pasha, who received his title from the former Khedive of Egypt, now is in Switzerland as head of the German propaganda. He received \$2,500 a month from the German government in the bank of J. P. Morgan to further the German cause. He wanted to establish a newspaper here or there to further himself into one of the big Parisian papers.

Paria also wanted to found a newspaper, for which he was assured a capital of \$1,250,000. It is remarked that while he was negotiating for the newspaper, he was in Italy, Bolo Pasha at the same time also was doing business in Italy.

Questions in the minds of the deputies, one of Turmel's colleagues said: "If Turmel were in a hurry to get out of the country, he would have asked for parliamentary immunity himself."

Still another connection has been found between the Bonnet Rouge affair. In a Russian box in the street by the name of Bonnet Rouge, the name of Turmel's name, concerned the sale of beef in Tunis.

BONNET ROUGE AFFAIR.
As regards the Bonnet Rouge inquiry, the Bonnet Rouge, a Frenchman named Charles Sancerre, author of the book entitled "Foreigners' Service in the Bonnet Rouge," said he has certain proof to show that relations exist between the Bonnet Rouge and the Bonnet Rouge. He also heard two typists who did certain work for the Bonnet Rouge, especially on the result of the Bonnet Rouge, in the chamber, the proceedings of which Dr. Michailis, the German Chancellor, had been in the chamber.

One curious detail has just been found against Bolo Pasha. It appears he was denounced by the Bonnet Rouge, and the result of the Bonnet Rouge, in the chamber, the proceedings of which Dr. Michailis, the German Chancellor, had been in the chamber.

COAL INDICTMENTS
AT JEFFERSON CITY.

(BY A. P. NIGHT WIRE.)
JEFFERSON CITY (Mo.) Sept. 20.—Indictments were returned today against John W. Scott, dismissed commissioner of permanent seat of government, and John Riner, a local coal dealer, by the special grand jury which has been investigating the alleged sales of State coal to State officials and individuals. Seven indictments were returned against Scott and two against Riner.

Notary James H. Riner had been arrested tonight. The exact nature of the charges could not be learned, as the indictments were returned to the clerk of the Circuit Court and their contents were not made public.

Prior to the grand jury investigation, it is alleged, the Attorney-General had secured evidence that the Star, his been taken by nineteen carloads of coal, for which no accounting had been made.

WORK FOR AVIATORS
WHEN WAR IS OVER.

(BY A. P. NIGHT WIRE.)
NEW YORK, Sept. 20.—Steps to organize an international council of civil aviation, with the object of studying the possible application of aircraft for commercial purposes and for finding employment for thousands of aviators after the war, have been taken by the Aero Club of America, it was announced here tonight. Similar committees already have been organized in France and England, it was said.

ARMY CLERKS ALSO
TO BE DENIED DRINK.
(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
SAN FRANCISCO BUREAU OF THE TIMES, Sept. 20.—The army officers, the sparkling burgundy and the satisfying dark and light brews are not for the army field clerks. Field clerks, as well as soldiers, are going to nurse an accumulative thirst for the remainder of the war. It is all because the army field clerks have been ordered to abstain from alcohol.

The essential differences between the soldiers' uniforms and clerks' uniforms are in the color of the cloth. The clerks' uniforms are in the color of the cloth. The clerks' uniforms are in the color of the cloth.

British Guns.

(Continued from First Page.)

wire and shattered trees. The German defenses were composed largely of concrete redoubts. The Germans poured a wicked stream of bullets into the ranks of the advancing troops from concrete redoubts. Every little elevation and all the woods were choked with rapid-fire guns.

The British encountered hard fighting at many places, but their magnificent artillery work had done much to make the first stage of their drive easier.

The British barrage swept the country like a broom. The Germans knew the attack was coming, but were unaware of its exact locality. There was a light rain last night, but the weather cleared this morning and the visibility is improving.

JUSTIFIES THOMPSON.

Corporation Counsel Holds He was Right in Permitting Pacifist's Meet.

(BY A. P. NIGHT WIRE.)
CHICAGO, Sept. 20.—The city's legal department in an opinion published tonight justified Mayor Thompson in permitting the public meeting here recently of the Council of American Democracy and Terms of Peace after Gov. Lowden had forbidden the organization to hold meetings in the State.

The opinion was approved by Samuel A. Eitelson, corporation counsel, and was rendered, it was stated, at the request of Mayor Thompson. Its essence was that the Mayor would act illegally in prohibiting any public meeting of the Council of American Democracy, an assumption that it was going to be an illegal one. The Constitution of the United States was quoted to length to insure members of the council right of free speech and concluded: "A court, and much less an executive officer like the Mayor, has no right to prevent in advance a meeting of citizens on the ground that it is anticipated they may not assemble in a peaceable manner."

MILLIONS OF BOND
BUTTONS PROVIDED.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Sept. 20.—Preliminary contracts for 10,000,000 buttons for purchasers of the second offering of liberty bonds next month are being made by the Treasury Department and delivered to the various districts.

The buttons will be called officially "badges of honor." The order will be in red, blue and white with a bust of the Statue of Liberty and the inscription, "I Own a Liberty Bond" in white.

Don't burn your waste paper. Save it and sell it. Economy Paper Company.

BOMB EXPLOSION
ALARMS EVANSTON.

Barber Shop is Wrecked in a Labor Row.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
CHICAGO BUREAU OF THE TIMES, Sept. 20.—Evanston was aroused by a bomb explosion early today which wrecked a barber shop and caused other damage. Sixty sleepers in the Y.M.C.A. Building were imperiled.

Strike among Evanston barbers is blamed by the police for the blast. The bomb wrecked the front of a barber shop at which it was directed, tossed a number of sleepers in the Evanston Y.M.C.A. adjoining out of their beds, broke windows in near-by houses and caused a fire in a portion of the suburb in which the outrage was committed. A property loss of \$1000 was caused.

Three men in a red automobile, speeding away after the explosion, are being sought as the perpetrators. The barber shop is owned by Julian Marid, No. 3755 Resonance, Evanston. It formerly was the North Branch barber shop, but three weeks ago was purchased by Marid.

The car was seen a few minutes after 2:30 o'clock. It is believed to have been composed of dynamite, and it is thought that all the circumstances under the explosion are being sought as the perpetrators.

LIQUID GAS AND FIRE
FOR AMERICAN TROOPS

Special Devices for Modern Trench Warfare will be Supplied.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Sept. 20.—American troops in France are to be supplied fully with trained forces to deliver gas and liquid fire attacks, according to army general orders made public today, giving the organization of special engineer units to handle these devices of modern trench warfare.

The orders show that each army, three corps under the new organization, will have a special engineer regiment of one colonel, one lieutenant-colonel and three captains and thirty-eight enlisted men in the headquarters division and six companies with six officers and 350 men each whose business it will be to handle the "gas and flame service."

In addition, each army will have thousands of men in supplemental engineer units to deal with other phases of modern fighting. These will be a mining service regiment of six companies, a general construction service regiment, an engineer supply service detachment of three companies, three workshop companies and one service battalion; a battalion of topographical engineers to provide a surveying and printing service; a water supply service regiment of six companies, a road service detachment with three road engineer companies and six service battalions of four companies each; ten motor truck companies of thirty-one trucks each, and five wagon companies with sixty-one wagons each.

On the line of the communications of each army will be a pontoon park with six construction battalions and six service battalions of engineer troops, two supply battalions, two workshop battalions and three support battalions, ten battalions of forestry engineers supplemented by nine service battalions of this work; two battalions of special quarry service troops with four supplemental work battalions; five battalions of railway engineers for the operation and mechanical department, supplemented by three service battalions.

"We have won with a silver bullet before."—Lloyd George.

Silver Bullets

Yoshihito, Emperor of Japan

THRIFT became the national watchword in Japan early in 1914, when a policy of strict economy in government affairs was instituted. Expenses were cut down in every possible way, and so much money saved thereby that Japan alone of all our allies has defrayed war expenses entirely out of surplus funds in the national treasury. Not a public loan has been raised nor a single dollar added in taxes. That shows preparedness without a parallel!

A MERICAN thrift, no less than American bravery, is an important factor in this war. Every dollar saved serves as a silver bullet to hasten Victory.

Your dollars will do their part if deposited at interest in this bank.

TWO OPPOSING FORCES STAGGERED BY COMBING OF THE CITY.

Petitions for Initiative Law are Freely Signed.

Backers of Second Measure Will Be Announced Soon.

Circulators of the two no-saloon initiative petitions were working in all sections of the city yesterday and it was reported last night that they had secured a large number of signatures. Supt. Gandler, who is leading the fight for the Anti-Saloon League and allied organizations, said he expected more than one hundred small army of volunteer workers in the field and he says they will meet success everywhere.

E. B. Harris, who has been signing other no-liquor petitions, reports he had fifty men and women at work today and will have probably twenty-five tomorrow. He also authorized yet to announce the names on the committee behind the proposed ordinance for which he is securing the signatures. "I can say only that some of the biggest men in Los Angeles are behind the movement," he declared. "The saloons have told me that they believe the majority of the people will be satisfied without abolishing the saloons, and also that the taxpayers are not anxious to assume the burden which would result from their abolition."

The Anti-Saloon League measure goes into effect on April 17.

ANGELENS TO ATTEND INSURANCE MEETING

Fifty agents of the Pacific Mutual Life Insurance Company of Los Angeles who have produced over \$100,000 worth of business in a given month since January first, leave Sunday to attend a three-day convention of the Big Tree Club. This organization, composed of insurance agents who have secured over \$100,000 worth of business for the company during the past year, will also attend a three-day convention of the National Life Underwriters' Association immediately following the Big Tree convention.

This will be the third meeting of the Big Tree Club and the twelfth annual convention of the underwriter's association. The club plans to hold a celebration in honor of its fifth anniversary next week. Plans include a banquet in the Yosemite Valley.

TRIES HARA-KIRI.

A Japanese Scholar, in the Midst of Oriental Art, Stabs Self in the Abdomen.

Police Surgeon Gilmer yesterday performed a delicate operation in the hope of saving the life of Kagi Sera, 42, a Japanese scholar who attempted to end his life by committing harakiri, the ancient method of his ancestral countrymen of suicide.

The man was found in his study, surrounded by books and scrolls and carved works of art. He had been brooding over religious subjects and his mind probably became unbalanced as a result of composing the sutra written up by the Japanese in ending their own life. Sera, the police say, thought too deep cuts on his abdomen, inflicting probable fatal wounds.

He was removed to the County Hospital, where he was said to be in a dangerous condition.

SQUANT WITNESS.

An important witness in the suit of Mrs. J. A. Farish to eject W. D. Studabaker, a substantial of a storeman in a downtown building, was Miss A. Nixon, in Judge Hewitt's court yesterday. She and her mother-in-law, Mrs. F. M. Farish, owned the storefront.

After relating how Miss Grace Gould, a clerk recently obtained a judgment for \$896 against Mr. Farish after she sued him for libel because he called her a liar several times a week, he said, but he could not understand why Mr. Mulvaney took sides with her wife. The decree was granted.

WITHOUT A QUARREL.

There was no quarrel, Mr. Mary A. Mulvaney told Judge Finlayson in her divorce suit yesterday, but her husband, George E. Mulvaney, left home early this morning when she decided to leave. A neighbor testified that the Mulvaneys seemed happy. But Mr. Mulvaney had threatened to desert her five or six times a week, he said, but he would not understand why Mr. Mulvaney sided with his wife. The decree was granted.

ON MONOLITH PLANE.

A special meeting of the Board of Supervisors and the Board of Public Service Commissioners will be held tonight to discuss the removal view of reaching an agreement in the case of the Monolith cement plant located near the city limits.

Yesterday afternoon in which an effort was made to find out how much the county owed the city and the city owed the county.

UNDEVELOPED TELEGRAMS.

There are undeveloped messages in the note office of the Western Union Telegraph Company for Mrs. A. Barnes, Kathryn Davis, Mrs. Fairbanks, James J. R. Brown, Horritt and Berg, Los Angeles Overseas Missionary, Esther Lerett, Frank Knoll Miller, J. L. McCullar, B. A. Owen, and others. They belong to Katharine Wall, Claude T. Terry and Frank Tolte.

All Postal offices; Ted Johnson, A. Patterson, T. C. Sehnke, Winron, R. Pemberton, Miss Nellie Colgan, Prof. John E. Watson, Dr. N. S. Smith, J. P. Smith, Investigating Service, Earl H. Hartill and Hartman Detective Agency,

DANGLE HOOT.

Mrs. Dale H. Park of Los Angeles heard her arm broken in an automobile accident at Salt Lake City yesterday morning when the car in which she was riding was crashed into by another machine, according to a report received here from another woman riding in the car with Mrs. Park suffering a wrenched ankle and bruised ribs. Both automobiles were damaged, but neither turned over.

**Accused Tells of an After-
vacation Surprise.**

MONROVIA, Sept. 20.—For valor in an ambulance in the American service Ewen MacIntyre, brother of J. E. MacIntyre, real estate broker of this city, has been awarded the French cross of war. The young man joined his unit from Boston, his home, and had been serving out a year in the Verdun district before the chance came that resulted in his decoration.

It need occasion no surprise national platform of a great political party in the year of 1920 has a decision to the property of the lifting the ban on the of whiskey. Quaker (dinner) happened.
Gen. Leonard Wood great deal of satisfaction officers' training camp such a success. He is the of the Plattsburg line, officer who is accepted can thank him for the has "U.S.R." on his collar.
The present year is a nary of American poetry in 1917, in the September of the North American appeared William Cullen "Panatopia," writes youth of 17, that a grandson, with a vastness and beauty of expression Emerson had just entered Longfellow and Whitman of 10, Poe and Holmes old, Lowell and Whitman born until 1919.
The incident of peace, admiral William Sims in States Navy in command coast of Ireland by the, parallel in the history of it is something unheard of an alien, although charge of headquarters are assembled and are carried out, and ships go out on their secret errands.
PATRIOTIC SLACK
When a man is patriotic know it by his talk. And if he doesn't, it by his deeds. If he finds himself with a bit, he will still find his country's needs! But if his talk is only slack, it is only slack. As the able-bodied man evade. The man who talks, said it has but one other contribution made! If no other contribution made! So let's get a little back up what we are. "Would be too late if wait till 'top and by." If we want to serve in this war, we must be ready to do and die! ARTHUR JUSTIN STEWART Los Angeles, Sept. 1

Be assured that no store in America can gather and distribute merchandise more advantageously or more economically than Coulter's, and that comparison of both quality and price will prove the advantage of depending upon this store.

Coulter's Dry Goods Co.

The fact that the store is not in its usual good state of arrangement—that fixtures are torn out and stocks heaped high on counters, instead of on shelves or in cases—in no wise affects the quality or the desirability of the merchandise offered during this sale.

REMOVAL SALE

Unsurpassed Merchandise at Incomparable Prices During These Last Days on Broadway

Oldest Dry Goods Store in Los Angeles

The Best in Dry Goods Since 1878

Any \$7.00 to \$20.00 Parasol now \$5.00

SUNDAY PAYS BEAUTIFUL TRIBUTE TO MOTHERS.

Patriotism and Thoughts of Home are
Blended in Stirring Sermon.

A FEATURE of the Billy Sunday sermon yesterday was the afternoon meeting, where patriotism tinged the entire program, and where special attention was paid to "mother," through sermon, song and prayer, and by the tokens worn by thousands of people.

More than 1000 members of patriotic societies attended. That was a notable group that assembled on the platform. It represented veterans of the Union army in the Civil War, veterans of the Confederate army, Sons of Veterans, Spanish War veterans, and in the audience were members of the Liberty army that is marching forth to take up arms in behalf of the preservation of democracy in the world today.

On the choir section were seated members of the various women's relief corps; at their side were delegations from the posts of the Grand Army of the Republic; in the audience were men who were delegates to the khaki of the United States Army. Grouped on the platform at the beginning of the meeting were Capt. Phelps, Gen. Grant's chief of scouts; Maj. A. F. Judson, a veteran of the Confederate army; Gen. Barry, head of the Soldiers' Home, and Comrade Salada, an officer of the G.A.R., while, with them, were Billy Sunday and Homer Rodheaver, both sons of veterans, while Mr. Rodheaver represented the Spanish War Veterans, he having seen service under the flag in Cuba.

A thrilling incident occurred when Maj. Judson reached over and kissed Old Glory, and then, with his arm thrown over the shoulder of a Union veteran, he gave a poem thrilling with patriotism and unity of North and South, East and West in one nation, indivisible.

Many of the songs were patriotic, and then they took on the fervor of

old-time religion. The assemblage was marked by the number of old people in it. They were asked to name their old favorite songs, and then they were sung. Occasionally some frosty-headed man or woman would call for a song that even the song-leader did not know and they were given the duty of "raising the tune." A quavering voice would strike up, and in a moment others would join in, until the old song would come back to hundreds and it would be sung with spirit and volume.

Then followed Mr. Sunday's stirring sermon on "Mother." It was a theme that appeals directly to every normal person. His tribute to the godly mother was beautiful and effective. When he extended invitations to take the trail there were 115 responses.

Mr. Sunday repeated the sermon on "Mother" at last night's meeting, which was attended by more than 15,000 people. There were delegations present from Belleflower, Anaheim, Gardena, San Gabriel, Ocean Park and Santa Monica, the latter delegation being headed by the Santa Monica Band, Mayor Berkeley and Chief of Police Ferguson. There were big delegations from various business concerns of the city, and a great section of telephone girls.

When the invitation to "hit the trail" was given there were 345 responses, bringing the total number of trail-hitters for the day up to 463, and the total for the campaign to 5105.

"MOTHER."
The sermon was based on Exodus 17: "Take the child away and nurse it for me and I will pay thee thy wages." During the course of the sermon Mr. Sunday said:

EVENING SERMON.
I think the story of Moses is one of the most attractive and fascinat-

ing ever written, and it takes hold upon us, and it never loses its interest. It is so graphically told that once it is learned it is never forgotten.

I have tried to imagine the anxiety with which that child was born into this world, for it came with the sentence of death hovering over it; for the sword of Pharaoh had declared that every male child born of the Hebrews should be slain, and the battle of "right" against "might" started right at the cradle.

The mother of Moses was a slave and she was compelled, like the other Jews, to work in the brick yards, but God was on her side and she won, as the mother always does when God is on her side.

Before going to work she had to secure a hiding place for this child and put his little sister Miriam on guard, lest her presence be seen by the soldiers of Pharaoh and they would hunt and slay this child.

For three months he had to be hid and each day a new hiding place had to be secured. I think it would be difficult to imagine anything more hard to imagine than to hide a good, strong, healthy, growing baby. Now that he had grown larger and more full of life, a more secure hiding place had to be found, and imagine her giving up the time she should have spent in sleep in order to prepare an ark for saving this child.

I believe the plans for that ark originated in heaven. I repeat that I think the plans for that ark originated in heaven, for God was as much interested in the salvation of that child as the mother could have possibly been, for God knew what and if there's no one to take your place, the devil will take it.

NO LUCK OR CHANCE.

An event so important and far-reaching upon the human race never happened by luck or chance. Per-

haps God whispered the plans to her when she went to him in despair over the fact that Pharaoh was going to slay all the male children born.

And all the dark nights she prayed that God would bless the work she had done, and the step that she had taken, and shield her child.

People sometimes ask me how I imagine the angels employ their time. I think some of the angels were busy keeping the soldiers away, lest they might accidentally find this little boy and slay him; for all

HOT OFF BILLY SUNDAY'S

I think God planned the whole thing—just as he planned the birth of that little kid. God was on the job, don't you forget it. Why, the Lord put it all over that old woman, Pharaoh's wife, that she didn't go to heaven.

I think some of the angels must have stood there and that baby to make it cry just at the right time, so that the daughter would find it. Nothing happens by luck or chance. It grew up to be the leader of Israel. I tell you, Moses was hogany all the way through, no viceroy. This promise was an's heart in her, and when a true woman's heart and tears meet something is going to happen that will stir the cold, take it from me.

Most any kind of an old stick will do for a family. Lord's mighty particular about what kind of stick you make of. Fathers too often give up; get the stick, go to the booze, commit suicide; but mother stands by the stick, manures her finger-nails over a washboard to keep them from the poorhouse.

A mother's task is the greatest thing in the world, far-reaching that it is above everything else. It is the most old-fashioned enough to believe that there is not a mother enough to entirely pull a boy or girl out of the arms of a mother.

If you want to drive the devil out of the world, keep him from your boys and girls and he'll lose his job. A sinner will soon be in your coffin, and the world will be a better place for it. There's no one to take your place, the devil will take it.

There's nothing to show that the mother of Moses was from your boys and girls and he'll lose his job. A sinner will soon be in your coffin, and the world will be a better place for it. There's no one to take your place, the devil will take it.

One of the awful things about hell is that there is no mother love in hell; nothing but black, bottomless hate. I tell you a mother's influence is immeasurable, but that Judas became the miserable traitor that he is because of a godless mother?

Heaven was on his side, and old Pharaoh did not have soldiers enough to pull one hair out of that baby's head. God was on the job,

For Treatment.

Opening Day Sunday, September 23

This ad is intended for you—the man or woman who has been waiting for a bargain—a real bargain—a genuine opportunity to buy a close-in home place a little larger than the cramped 50-foot lots of the city and yet near enough so you can have all its advantages—out in the great, green country where life is worth living and where you can raise all your own table vegetables and garden truck, chickens, rabbits, etc., with some to sell besides—

YET ON 5c YELLOW STREET CAR LINE.

Well, here it is. And really, folks, when you see this land you'll grab it up quick for its the real cream of the famous old Cudahy ranch—known for years as one of the biggest producing ranches in all Southern California.

Acre and Half-Acre Lots —So Cheap You'll Just Have to Buy!

All the inflation has been squeezed out—the prices are right down to bed rock! Big, generous half-acre lots as low as \$750—and on easy terms, too. Why that's lower than you'd pay for adjoining raw acreage!

The soil is deep and rich; will grow almost everything from beans and beets to luscious fruits that make your mouth water. Do your bit. Be a producer and incidentally make your land pay for your home.

GAS, ELECTRICITY, WATER, SIDEWALKS, AVENUES

—are now being installed and the price you pay includes them all—no extras or assessments. Don't put this off. See us at once for further information.

LOCAL CORRESPONDENCE
SAN LUIS OBISPO, Sept. 20.—

More than 350 members of the Liberty army, many of whom will be from the city, will be royally entertained here at noon tomorrow.

With the forty-seven local boys who will go north to Camp Pendleton, they will be under the leadership of the local Liberty army.

The dinner will be under the leadership of the local Liberty army. The boys will be under the leadership of the local Liberty army.

Fathers too often give up; get the stick, go to the booze, commit suicide; but mother stands by the stick, manures her finger-nails over a washboard to keep them from the poorhouse.
